**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My internet service provider Sonic (who I'm very happy with) informed me that the FCC is considering removing requirements of the telecommunications act that allows them to unbundled copper and inter-city fiber transport elements (UNEs). Sonic is not my first provider, I've used AT&T and Comcast before. Sonic is the first provider though that has kept it's price consistent and not misled me into buying packages that were of no use or benefit to me.

The competition that companies like Sonic provide make my home internet faster, better and cheaper than I had with AT&T or Comcast. Please keep the current provisions of the telecommunications act that keeps the marketplace competitive. Thank you.

Arthur Simon
